

A compact disc (CD) is shown from a top-down perspective, lying flat on a light-colored surface. The CD's surface is divided vertically down the center by a thin, dark line. The left half of the CD is labeled 'beschichtete Hälfte' (coated half) and the right half is labeled 'unbehandelte Fläche' (uncoated surface). The left half has a smooth, reflective finish, while the right half has a matte, non-reflective finish. The central hole of the CD is visible in the middle of the split. The background is a plain, light-colored surface.
